- Thursday (2:00pm - 4:00pm)
- Thursday (4:00pm - 6:00pm)

Description

Telematics Wireless is a recognized global leader in the delivery of robust, reliable and advanced energy and water resource management systems based on RF wireless networks. With almost 20 years of experience in Machine-to-Machine (M2M) technologies, our solutions support a wide spectrum of smart city applications, increasing their efficiency, reliability, and cost-effectiveness. Telematics Wireless has delivered and installed over 12 million cutting-edge wireless devices and water systems for Automatic Meter Readings (AMR), Advanced Metering Infrastructure (AMI), energy resource management, smart grid, street and outdoor lighting control systems, location-based services, asset tracking and monitoring, and electronic toll collection

Areas of Activities

TECHNOLOGY

1. Services integration
2. city platform
3. sensors
4. Internet of things cloud
5. networks

6. high technology

ENERGY

1. efficiency
2. electricity
3. metering

MOBILITY

SUSTAINABLE CITY

1. Urban growth
2. water & waste management
3. sustainability

Offer & Request

Water resources management

Telematics offering a wide variety of Water resources management

Cooperation Offered

1. Outsourcing co-operation
2. Sales / Distribution

Idea

Looking for Municipalities to discuss the "smart lighting as a road map for smart city "

wireless Smart lighting open the window for smart sensor network

Offer

Smart Lighting Solutions

Smart Street light

Cooperation Offered

1. Technical co-operation
2. License agreement
