Description

EXPOCOM S.A. was founded in 1980. It is a company with innovative technological abilities and it has a wealth of experience in several radiocommunication's sectors. Compromise EXPOCOM S.A. is committed to provide comprehensive solutions on telecommunications and electronic security systems. It offers consultancy and engineering services, technical support, electrical installation, and maintenance. EXPOCOM S.A. provides private enterprises and public institutions with a wide range of products for security and communication. Our aim: To afford competitive and added value solutions in the context of telecommunications and electronic security systems. EXPOCOM S.A. always aims to achieve customers' satisfaction. Our challenge: To become the reference point enterprise when rendering telecommunication services. To offer value added installations' services and solutions. Our values: Customer guidance, commitment with the results, honesty, and integrity as well as innovations, teamwork, and excellence. Our story: EXPOCOM S.A. was founded in 1980 by seasoned veterans of the radiocommunication's industry and the amateur radio. Our quickly development within the telecommunication sector was thanks to their enthusiasm for the new project. Our local and national presence in the professional radiocommunication's and security sectors has grown with time as we place great emphasis on working in close partnership with our customers as a utility company. Our initial catalogue has been complemented and a new range of products and services have been included. All they keep clear synergy with telecommunications and security. EXPOCOM S.A. is an expert on linking the variety of products from different brands with our customer's requirements directly. Thanks to our TIC career, EXPOCOM S.A. guarantees solutions based on our previous experience. We also take pride in contributing to these solutions with our knowledge and wisdom always relying on the main international brands.
