Bilateral Meetings

- Thursday (2:00pm - 4:00pm)
- Thursday (4:00pm - 6:00pm)

Description

Sinapse Energy was founded in 2007 with the aim of providing solutions for improving energy efficiency and contribute to energy savings in electricity networks, specially in public lighting.

It has a highly qualified multidisciplinary team of engineers in telecommunications, industrial and economists, with a great knowledge in energy research, telecommunications and electronics.

Sinapse Energia, **designs, develops, innovates and manufactures** electronic equipment for managing electrical networks. Sinapse Works with a priority that is the universality of systems for energy efficiency and savings.

Sinapse Network is a platform for managing electrical networks that can control any element associated.

In the case of public lighting network allows us to manage the infrastructure of the city without depending from lighting box.

Organization Type

Company

Organization Size

No, I have already an entry pass
