Offer

Partnership in EU and International projects

KIM is specialized in leading the Work Package on Communication, Dissemination and Exploitation of R•D results in H2020 and FP7 projects.

We can offer a vast experience covering following contributions:

- Commercialization of R&D results (Knowledge Marketing): Supporting the technology transfer process, through the evaluation, marketing and deal-making of technology.
- IP Strategy Design: Protection and valuation of intangible assets generated from R&D projects, and general assistance on regulatory and legal issues related to technology
- Project & Risk Management: valuating project risk, defining project governance and management best practice, and providing technical assistance and project management support to collaborative projects.
- Dissemination of R&D results: designing suitable communication strategies and campaigns and supporting the whole dissemination process.
- Communication strategy: identify goals, target audiences, resources, key messages and channels of communication
