Bilateral Meetings

- Wednesday (4:00pm - 6:00pm)

Description

REAL TIME, CROWD SOURCED URBAN VISUAL INFORMATION. Hi-Park's patented technology crowdsources in real time visual information such as vacant on-street parking while driving in the city, using drivers' smartphone cameras and sophisticated computer vision algorithm to serve drivers who seeks parking to the nearest available vacant parking slot, significantly reduces the time spent on searching and enabling cities and transportation agencies to control their parking congestion issues.
