## Description

Aticser SL is an independent private equity company that was founded in Barcelona in 2006. Based in the field of ICT consulting, it has grown through its dedication to service and commitment to its customers through providing IT solutions. At Aticser, we are a group of professionals with extensive and proven experience in the sector. Our New project for 2016: Aticser began the TECH4FREEDOM project a few years ago with Juame Cunill and now it is in more developed stages, we are producing the units to launch the project beginning 2016 and planning to create a spin-off for TECH4FREEDOM using the Open Innovation strategy. <https://www.youtube.com/watch?v=rDaXHFQVfjc>

## Request

### **Investment**

We manufacture sensing devices to help blind and disabled persons to achieve their full potential.

In consequence, we are focused in a collective of about 500 million persons, plus their companions

In addition, we offer services to cities and companies related, to adapt them to blind people and people with disabilities, under an important rule:

All what we do and what we adapt, must be useful not only for the related persons, but also for all the society
