Description
BLOCKpeek keeps track on whether your and your loved ones location is safe and alerts you in cases of critical incidents. By combining our users individual safety perceptions and incident reports with advanced data science we compute the world´s most sophisticated location safety graph. BLOCKpeek exists to make the world a better, a safer place. One city at a time. See this video with CEO Sascha Knopp on BLOCKpeek.

Offer & Request

Waze for Public Safety

BLOCKpeek monitors the physical safety and risk level for any given location. Combining data science, crowdsourcing and realtime analysis from a growing number of sources, BLOCKpeek detects developing risks and incidents faster and more reliable than ever. Citizens use our mobile applications to check the stafety level of their own and their loved one's current location and to receive alerts, covering a range of 35 hazard types from crime over terrorism to natural disasters. Public and commercial partners access our data-sets through dedicated application programming interfaces to enrich their products, services and decision making processes.
