- Thursday (12:00pm - 2:00pm)

Description

The Economic Strategy Bureau was established in April 2013 to improve Osaka's international competitiveness and attract people, goods, and investments from around the world, leading to sustainable growth of the Osaka economy. The bureau undertakes various measures, including the creation and promotion of urban appeal to rise above worldwide inter-city competition, improvement of the business environment, human resources and research functions, and supporting the growth and development of SMEs.

Offer & Request

To establish a platform with cities abroad who are advanced in “Life Science” and “New Energy” field

In OSAKA City, there are many SMEs that produce high-value-added products using their own technology.

Our city has its strengths especially in the “Life Science” and “New Energy” fields.

We look for potential partner cities to establish a platform where clusters and companies can cooperate with one another.
