Request

Channel Business Development Partners

KnowledgeKube is an innovative application delivery platform that gives all users the ability to produce Enterprise class applications without the hindrance or requirement to learn to code. Delivered as a PaaS (Platform as a Service) via Microsoft Azure, KnowledgeKube enables the Smart City and Digital Innovation agenda to be followed and delivered wherever, by whoever. We are looking to discuss regional agreements with future thinking partners who want to enable both their own staff or the clients to be truly innovative.
