BILATERAL MEETINGS

Thursday (12:00pm - 2:00pm)

DESCRIPTION SOLMET-7 is an Engineering company that focuses its activity on the design and manufacture of Test Equipment, assembly lines, welding stations and automatic manipulations for automotive component manufacturers and other industrial sectors. Founded in 2006 by a high skilled group of professionals, we are ready to accept challenges and new proposals from our clients to develop turnkey projects that fit their needs.

Since then, we have developed a wide range of projects:

- Welding stations: robotized, MIG-MAG, by resistance, circular or linear welding cabins, etc.
- Assembly projects: automatic lines, "stand alone" machines, screwing, part insertion, etc.
- Test benches, leak inspection, cabling test, artificial vision.
- Manipulation: pick system with claws or robotic vacuum, pneumatics, conveyors, elevators, tippers, etc.

ORGANIZATION TYPE Company

ORGANIZATION SIZE No, I have already an entry pass
