Offer

Casualty Reduction advice and guidance

Road Safety Support is a not-for-profit company that provides a range of specialist services to local authorities, the police and other organisations in the UK and overseas that share our commitment to road casualty reduction. We employ a team of leading specialists to provide support in all day-to-day casualty reduction activities.

Great Britain's roads are among the safest in the world, and over the last few decades deaths and serious injuries have been steadily reduced. With combined road safety experience of almost 250 years, Road Safety Support's team of specialists have played a key role in this achievement.

Road Safety Support's team of specialists are among the most skilled and experienced road safety practitioners in the UK. They were all hand-picked for their road safety experience, skills and professionalism.

Road Safety Support employs a team of technical specialists skilled in the workings and operation of speed and red traffic light enforcement technology. Our experts can advise you on using the various types of enforcement technology available accurately and effectively.

Road Safety Support assists the Home Office in ensuring that the enforcement technology used in the UK is accurate and reliable to protect the public and the reputation of those enforcing the laws.

Our support services include:

Advice on enforcement technology capabilities

Assistance with the operation of technology

Enforcement device testing

Analysis of enforcement device evidence.

Cooperation Offered
