Description

Our solutions are designed to help organisations manage and reduce their consumption and costs.

We have taken our experience and placed our efforts on Research, Development and Innovation, coming up with solutions for Business Cost Management in different sectors, such as Telecommunications, Energy, Raw Materials, etc.

Teamnet has developed an architecture known as BEM (Business Expenses Management) capable of managing and controlling your company or public entity's expenses in different sectors: Telecommunications, Energy. This platform is an innovative solution certified in 2013 as R+D by the CDTI (Center for Industrial Technological Development), which belonged at the time to the Ministry of Economy of Spain.

We are a consulting firm comprised of a team of professionals with more than 20 years of experience in Information Technologies and Processes Consulting for large organizations.
