Bilateral Meetings

- Wednesday (10:00am - 12:00pm)
- Wednesday (12:00pm - 2:00pm)
- Wednesday (2:00pm - 4:00pm)
- Wednesday (4:00pm - 6:00pm)

Description

Thanks to connected sensors allowing to count, classify, and identify the physical flows and the customer behavior (Pedestrians, Vehicles, Objects, Sensory, Energy) euroCSgroup develops and operates a global solution supplying to his customers decision-making information in order to improve their performance and optimize their operating expenses.

Organization Type

Company

Organization Size

Yes, I need an Exhibition Visitor Pass Discount Code

Areas of Activities

TECHNOLOGY

1. sensors
2. Internet of things cloud
3. big data
4. data analysis
5. security

ENERGY

1. management
2. metering

SUSTAINABLE CITY

1. water & waste management

Offer & Request

Proposal of solutions for Smart City projects

EuroCSgroup develops and operates Smart City solutions supplying decision-making information dedicated to cities thanks to connected sensors remotely checked.

Our solutions allow in particular: the management and the identification of the pedestrian and vehicle flows, the analysis of the pedestrian trajectory, the automation and the totally digital control of waste reception centers (the First One in South of France / Lyon).

We want to meet actors interested in this kind of projects in order to understand their needs and expectations.

Cooperation Offered

1. Technical co-operation
2. Sales / Distribution
