- Thursday (2:00pm - 4:00pm)
- Thursday (4:00pm - 6:00pm)

Description

PeiXe Software was founded in 2007 with a clear objective in mind to specialise in the development and marketing of sectorial solutions together with our clients. Peixe's core offering is based on a patented time attendance management and shift compliance service. It is secure, cheap and no hardware related service.

PeiXe Software is now developing a new service for (smart) cities to help families to achieve a better balance between familiar and professional time. It is our small contribution to make a better world.

1. PPP
2. involvement, partnerships collaboration

MOBILITY

1. Intelligent transport systems
2. sharing services & infrastructures
3. public transportation
4. community

SUSTAINABLE CITY

1. city strategy

Offer

TamTam Kids: A better balance between family and professional life

We want to help parents to achieve a better balance between personal and professional time and, in turn, promote our children autonomy.

We achieve this balance by encouraging your children to go alone to their usual places. We want to encourage your children to use public transportation. We don't want parents to be forced to go with them at peak times. We want you to know that your kids are where they should be when it should be.

TamTam Kids is non-intrusive technology for everyone: a contact-less card that your child will voluntarily use to report their arrival and departure from school, bus, after school activities... For your peace of mind, we will notify you on your smartphone that your child will arrive at home in 10 minutes.
