Areas of Activities

SMART SOCIETY

1. Citizen services

TECHNOLOGY

ENERGY

1. renewables
2. grid architecture
3. zero carbon
4. electricity

MOBILITY

1. sharing services & infrastructures

2. electric vehicle
3. alternatives energy sources

SUSTAINABLE CITY

1. Urban growth
2. green building
3. water & waste management
4. city strategy
5. sustainability

Offer

THE CITY OF THE FUTURE IS „TRENCHLESS“

Example: in the city of Grenchen (Switzerland) some 80-90% of the construction works are carried out „without trenches“.

Cooperation Offered

1. Sales / Distribution
2. Technical co-operation
3. Other

Offer

SMART SOLUTIONS for preserving the pipe infrastructure

Economic renewal of water, sewage and gas pipes in existing pipe routes.

Cooperation Offered

1. Sales / Distribution
2. Technical co-operation
3. Other

Offer

SMART SOLUTIONS for installing new pipes and cables

Fast installation without traffic obstruction at low noise level and min. CO2 emission.

Cooperation Offered

1. Sales / Distribution
2. Technical co-operation

3. Other

Offer

SMART SOLUTIONS for installing service connections

Environmentally friendly installation of FTTH, gas or water service connections without destruction of valuable surfaces.

Cooperation Offered

1. Technical co-operation
2. Outsourcing co-operation
3. Sales / Distribution
4. Other

Offer

SMART SOLUTIONS for geothermal heat extraction

Horizontal and vertical heat exchangers installed in the most confined innercity spaces.

Cooperation Offered

1. Technical co-operation
2. Outsourcing co-operation
3. Sales / Distribution
4. Other

Offer

SMART SOLUTIONS for installing charging stations

Fast and safe connection to the power grid using the keyhole technology

Cooperation Offered

1. Sales / Distribution
2. Technical co-operation
3. Other
