Areas of Activities

SMART SOCIETY

1. participation
2. social well-being

TECHNOLOGY

1. sensors
2. visualization

ENERGY

SUSTAINABLE CITY

1. sustainability

Offer

Environmental noise, gas, and dataloggers

We develop and manufacture tools to assesment and management environmental noise, and other environmental parameters to create models of pollutants and dynamic noise maps to increase citizens awareness about their environment

Cooperation Offered

1. Sales / Distribution

Cooperation Requested

1. Technical co-operation
2. Sales / Distribution
3. Investment/Financing

Offer & Request

Smart Dosemeter

We're looking for partners to develop an app or a network of sensors (indoor and outdoor noise sensors, and other pollutants), and pollutants algorithm including dynamic noise models, to increase the city inhabitants awareness about the environment they have at their cities.

Cooperation Offered

1. License agreement
2. Technical co-operation

Cooperation Requested

1. Investment/Financing
2. Sales / Distribution
