Bilateral Meetings

- Wednesday (10:00am - 12:00pm)
- Wednesday (12:00pm - 2:00pm)
- Wednesday (4:00pm - 6:00pm)
- Thursday (10:00am - 12:00pm)
- Thursday (12:00pm - 2:00pm)
- Thursday (4:00pm - 6:00pm)

Description

Wellness Smart Cities designs and builds technology to add intelligence to infrastructures, creating more efficient, more liveable and more intelligent cities. In fact, the company has a wide experience in manufacturing smart ICT solutions, products & services such as: wireless sensors networks, secure telecommunications, software development, SaaS provisioning and web/mobile applications.

Organization Type

Company

Organization Size

No, I have already an entry pass

Areas of Activities

TECHNOLOGY

1. Services integration
2. city platform
3. sensors
4. Internet of things cloud
5. big data
6. apps
7. visualization
8. geo information
9. networks
10. data analysis

ENERGY

1. efficiency
2. management
3. ICT
4. electricity
5. metering

MOBILITY

1. Intelligent transport systems
2. service integration
3. parking

SUSTAINABLE CITY

1. water & waste management
2. sustainability

Offer

WeSave Energy monitoring platform

Energy monitoring platform WeSave is a flexible technology solution for monitoring energy consumption and other environmental parameters in buildings or industrial settings.

WeSave focuses on capturing all kinds of data on both energy consumption and other external parameters that help define whether the use of energy is being efficient (temperature, humidity, person count, etc.).

Keywords: data system management monitoring energy real-time datos sistema monitorización energía edificios buildings tiempo real software application devices temperature humidity person count temperatura conte
Cooperation Offered

1. Technical co-operation
2. License agreement
3. Sales / Distribution

Cooperation Requested

1. Sales / Distribution

Offer

WeLight Telemanagement System for public lighting

WeLight is a telemanagement System for public lighting that enables lighting monitoring and maintenance control, as well as lighting management and management optimization, by monitoring consumption and acting on fluctuations.

Keywords:

lighting telemanagement monitoring optimization consumption telegestión telecontrol alumbrado público public saving energy monitorización

Cooperation Offered

1. Sales / Distribution
2. License agreement
3. Technical co-operation

Cooperation Requested

1. Sales / Distribution

Offer

eGarbage An intelligent urban waste collection system

An intelligent urban waste collection system

Collection routes are optimized and costs are improved by constant monitoring of waste container content level, thereby reducing fuel costs and air pollutant emissions.

Keywords:

waste routes optimization containers sensors collection recogida basura residuos optimización sistema a system rutas software hardware sensor sensores management gestión

Cooperation Offered

1. Sales / Distribution

Cooperation Requested

1. Sales / Distribution
2. License agreement
3. Technical co-operation

Offer

Widesens An innovative probe based on microelectronic sensors

Widesens is an innovative probe based on microelectronic sensors to achieve a feasible widespread use of sensors in water networks management

Keywords:

water drinking quality leak ph potable calidad sonda agua p widespread redes red abastecimiento
Conductivity pressure parameters chlorine supply telemetry system software application

Cooperation Offered

1. Sales / Distribution
2. Manufacturing agreement
3. Technical co-operation

Cooperation Requested

1. Sales / Distribution
2. License agreement
3. Technical co-operation

Offer

WeGo&Park An intelligent parking space detection video system

An intelligent parking space detection system

Location of available public parking through a novel detection method using real time video processing distribution.

Keywords: video parking detection mobility management system real-time processing traffic application software

Cooperation Offered

1. Technical co-operation
2. License agreement
3. Manufacturing agreement
4. Sales / Distribution

Cooperation Requested

1. Technical co-operation
2. License agreement
3. Sales / Distribution
4. Investment/Financing
