Bilateral Meetings

- Thursday (10:00am - 12:00pm)
- Thursday (12:00pm - 2:00pm)

Description

In Zolertia we are focused on the development of Internet of Things hardware and firmware solutions for corporations and business. We help companies to design and create products connected to Internet in an early-stage and in a second phase to bring this product to the market through the massive production and the certification process. Our main markets are Smart Cities, namely Smart Lighting and Environment Monitoring, Industry 4.0 and Logistics. In Zolertia we also provide development platforms for research centers, universities and R&D departments of companies interested to develop solutions & projects for the Internet of Things market.
