Bilateral Meetings

- Thursday (10:00am - 12:00pm)
- Thursday (12:00pm - 2:00pm)

Description

Lartet is an engineering company that designs, manufactures and markets electronic devices such as data displays and sensors since 1985. It is located in Granollers (Barcelona). Lartet offers a wide range of standard displays focused to tertiary and industrial environments that can be adapted in different ways, as the number and size of digits, number of lines, communications protocol, protection level and level of light intensity of the digits or characters. The displays are equipped with versatile software that increase the functionality of the equipment. The functionality of the equipment is increased by powerful software features built in. Lartet also designs and manufactures bespoke data displays, tailored to the unique needs of a particular installation. The company manufactures temperature, humidity and CO2 sensors for use in different fields, as railway HVAC equipment. The company has ISO/9000 certification in the design, manufacture and marketing of these products. It also has the railway IRIS certification activities of design and manufacturing in the fields of: -Information systems to passenger. -Wiring and electrical cabinets. -Lighting.

Areas of Activities

TECHNOLOGY

1. Services integration
2. city platform
3. sensors
4. city rooms
5. security
6. public safety
7. emergencies

ENERGY

1. Climate change
2. renewables

MOBILITY

1. service integration
2. parking

Offer

Offering electronics design and manufacture.

Offering electronics design and manufacture.

Cooperation Offered

1. Technical co-operation
