Bilateral Meetings

- Wednesday (2:00pm - 4:00pm)
- Wednesday (4:00pm - 6:00pm)

Description

The Institut Català del Sòl, INCASÒL (Catalan Land Institute) is a public body of the Catalan Government (Generalitat de Catalunya), whose principal objective is to respond to the regions' need for housing, business and industrial areas, as well as the required infrastructures for its correct implementation.

Organization Type

Public Organisation

Organization Size

No, I have already an entry pass

Areas of Activities

ENERGY

1. Climate change
2. renewables
3. regulations
4. zero carbon
5. efficiency
6. electricity

MOBILITY

1. Intelligent transport systems
2. mobility on demand
3. pedestrians
4. urban cycling
5. public transportation
6. community
7. electric vehicle
8. alternatives energy sources

SUSTAINABLE CITY

1. Urban growth
2. green building
3. liveable cities
4. architecture
5. water & waste management
6. product cycle
7. urban redevelopment
8. city strategy
9. regeneration
10. sustainability

Request

Implementation of the charging network for electric vehicle without increasing the electric power

We have to install charging networks for electric vehicle in our new urban plans but we shouldn't increase the electrical power demand, because we can't increase the electric supply costs (construction of electric supply facilities) associated to our new urban districts

Cooperation Requested

1. Technical co-operation
