Description

EiPM is an engineering and consultancy enterprise that develop *BIM* (Building Information Modelling) projects. Our expertise are: (a) to develop very large scale of *BIM* projects to transform buildings and infrastructures from 3D scan to *BIM* models, and (b) to manage the *BIM* model as a database with open source solutions (IFC format data files). We are now working to manage the *BIM* model of buildings at the cities scale with *GIS* (Geographical Information Systems) open source software solutions, this is to merge the *BIM* with *GIS*.
