Description

Hall 2 Stand 517

PluService started out in 1988 as a software house serving local public transport companies. After over 25 years' activity, we are currently the leading Italian company in the field of integrated IT systems (ERP) for passenger transport companies, with over 250 clients evenly distributed throughout Italy and over 1000 application packages installed. Its core products are ticketing and payment platforms, Automated Fare Management, fleet management and management of fleet maintenance, demand responsive transport software etc. Pluservice is a strategic provider of the AFC back-office in international projects. With a team of experts in the area of software engineering, development and project management in the Intelligent Transport Solutions area Pluservice has implemented hundreds of installations of IT platforms.
