ilimit comunicacions, s.l.

http://www.ilimit.net

DESCRIPTION   Founded in 1995, it currently has over 1,000 clients and well-established infrastructure of a data centre and proprietary IP network.

Ilimit facilitates its clients' competitiveness and productivity, thanks to administrated services, including public and private cloud computing, and virtualization services, such as managed hosting and cloud workstation. Ilimit also offers a wide range of network-security, application-hosting and co-location services from its data centre. One potential benefit of our range is the portfolio of Internet-connectivity and managed MPLS network products, which enable us to offer the most competitive option best suited to any needs. To round off our range, we have our VoIP operator services, which enable us to cover all of a company's voice and data needs, offering competitive improvements and reduced costs in those areas.

Offer & Request

TECHNOLOGY PROVIDER IN THE CLOUD INFRASTRUCTURE AND TELECOMMUNICATIONS FIELD FOR SMART CITY PROJECTS

Ilimit is a provider of technology and telecommunications services aimed at companies. Founded in 1995, it currently has over 1,000 clients and well-established infrastructure of a data centre and proprietary IP network. We offer local IaaS and colocation services as well as managed services around those fields. We are looking for companies that require a technological partner related to the infrastructure and managed services related to cloud computing.
