## Description

EkoRent is the first and biggest company in Finland to offer affordable, easy-to-use, zero-emission short term car rental and sharing services. All our vehicles are 100% electric and completely CO2 emission free. Shared and rented EVs contribute to better, cleaner city air, and also save money for its users. Additional bonus of using our service is the good feeling achieved of making an eco-friendly decision. EkoRent service experience is fun and fast. Cars can be located and rented using a mobile app that clearly shows how far the car can be driven before the next charge is needed. Simple pricing model combined with low prices based on the real use of the service enable acting sustainable affordable to everyone. Hourly based rent prices always include unlimited kilometers, navigator, insurance, and charging and parking at vacant EkoRent service stations. EkoRent opened several centrally located service stations in Finland during 2014 and will continue adding new stations and expanding our fleet during 2015.
