- Thursday (12:00pm - 2:00pm)
- Thursday (2:00pm - 4:00pm)
- Thursday (4:00pm - 6:00pm)

Description

ECOBAM are smart speed bump devices, bike lane dividers and vials dividers. They are able to detect pedestrians in pedestrian cross, vehicles or detect high average speeds in pedestrian areas and send light signals to drivers to prevent accidents and save lives.

They are made with Cast Iron (Nodular), they come with a 10 year warranty and they are compliant with the regulations of the Transport Ministry FOM 3053/2008.

Their capability of supporting heavy traffic and/or high vehicle intensity combined with their LED lighting and anti-theft systems makes them unique in the market.
